Re: THANK YOU!

Dear Todd:

As I stood next to the Circulation Desk at the Concord Free Public Library yesterday, watching the very happy library card holders look around in wonder at the beauty of the new library, I realized all the time and hard work the team put into it was worth it.

I want to thank you personally for the time and effort you, your foremen, and craftsmen put into the project. Without the flexibility, innovation, and teamwork, the project would not be the success it is.

Please pass along my personal thanks to all the guys who worked on the job. Once again, thank you for helping R. L. Jeannotte, Inc. successfully complete the most challenging project we've had in our twenty-two year history.

Keep up the good work,

Seth Jeannotte  
President
