

DIOCESE OF WORCESTER

Director for Facilities

RICHARD J. BREAGY

January 2, 2007

To Whom It May Concern:

I have given NorthStar Construction Services of Leominster, MA the opportunity to bid roofing work for the Diocese of Worcester during the past three years. They have, as a result, been given contracts for slate, asphalt shingle and rubber roof covering replacement projects.

The thing that stands out is the feedback I receive from the parishes where they have done work. I receive excellent reviews about their workmen who act with professionalism and respect.

The projects are always done in a timely manner and the sites are kept clean. Any problems that may have arisen during the course of their work have been very minor and solved quickly.

I have dealt with Jay Bergeron and Todd Rotti over the years and both have a vast knowledge of the roofing industry which helps immensely when questions arise. Their proposals are thorough and they do their homework. In addition, they respond quickly and are willing to price small difficult jobs such as high slate roofs.

I recommend NorthStar Construction Services highly as a roofing contractor and I will continue to offer them work.

Sincerely,

Richard J. Breagy
Director of Facilities & Construction
