January 16, 2007

Everest Partners, LLC has utilized the services of NorthStar Roofing since 2003. As our New England portfolio of retail, office and mixed-use flex buildings grows beyond the 4 million square foot mark, we have relied on NorthStar for Roof Assessments, Due Diligence Inspections, Full Roof Replacement and Roof Repairs/ Preventative Maintenance.

The professionalism and quick response on the part of their staff and crew members is unparalleled in the industry. It is this company-wide approach to doing business, coupled with their industry knowledge and competitive pricing that keeps bringing us back to the people at NorthStar time after time.

Matt Joyce, Asset Manager
