Mr. John LaStella, President
NorthStar Construction Services Corp.
40 Albert Drive
Leominster, MA 01453

January 11, 2007

Dear Mr. LaStella:

I am writing to express my thanks and recommendation for NorthStar in its successful work in our re-roofing project in the late Fall of 2005 here at our church.

The project appeared daunting to us. It was being pursued as the cold weather approached, and on an emergency basis. We had discovered stress fractures in the interior walls of the church which indicated too much weight from the roof. Upon investigation, you discovered three layers of shingles, with the imminent possibility of the snow and ice of winter adding to the weight creating a potentially hazardous situation.

NorthStar came out, scoped the project, presented its proposal for demolition of the shingles and re-roofing of the church; materials were ordered, and the work began. The crew was friendly and responsive to all questions and requests, Demolition work was extensive, yet accomplished quickly, and in a very reasonable time-frame the parish had a beautiful new roof which all parishioners simply love.

I can't say enough about the foreman, the crew, and all those at NorthStar for their attentive and diligent response to our situation.

With my sincerest thanks and appreciation,

Yours truly,

Rev. Ernest P. Allega
Pastor
